

Summer Term in Beech Class

English

This term our writing will be inspired by our class book, *The Boy at the Back of the Class*. We will use this narrative to enhance our knowledge and understanding of our topic 'Migration' and write a diary entry, information text, discussion and argument from it. In our daily reading lessons, we will share and explore the book *Journey to the River Sea*, which again, has links and ideas to do with migration.

Maths

Geometry is a big focus in the Summer Term, where we will look at shape, position and direction, converting units and volume. We will also calculate with decimals and look at negative numbers.

History and Geography

We will explore the topic of Migration from both a historical and geographical standpoint. We will

learn about the different types of migration and the reason why people migrate. We will also learn about Windrush and look closely at some of the countries where the Windrush generation were born in.

PSHCE

Y5 – Being my Best, Growing and Changing.

Y4 – Being my Best, Growing and Changing.

Computing

Staying Safe Online

Art and DT

Inspired by the theme 'Migration' we will complete an author study of Olga Shvartsur and Richard Symmonds. We will also look at patterns and colour from the Caribbean. In DT, we will make a delicious Jerk Plantain curry.

Music

Y5 will continue learning the violin with Mrs White.

Y4 will learn how to play the Ukelele.

Spanish

The children will continue to learn the basics of the Spanish language and then develop their vocabulary and learn the names of fruits and vegetables, colours, days of the week, months of the year.

PE

Tennis and Hockey, followed by athletics.
